OBJECTIVE

Motivated Computer Science student with a solid foundation in software development and a proven ability in improving and maintaining web and mobile applications. Seeking a Software Engineer position to leverage my programming skills and collaborative experience in contributing to innovative, user-focused software solutions.

EXPERIENCE

Junior Software Developer
EcomSystems | Jan 2023 – April 2024

- Collaborated within a team of developers to enhance and maintain retail websites, ensuring adherence to coding standards and best practices.
- Modified and redesigned sites to meet customer specifications, improving user experience and site performance.
- Conducted system analysis and troubleshooting, resolving software issues effectively and promptly.
- Awarded certificate for C# Intermediate: Classes, Interfaces, and OOP

Junior Software Developer (Intern) | Junior Software Developer
Novvia | May 2021 - Dec 2021 | Jan 2022 – Dec 2022

- Developed and tested mobile applications using Flutter and Dart, contributing to successful project success.
- Led client communication and played a pivotal role in web development projects, gaining experience in systems analysis and programming.
- Assisted in the application development and deployment, gaining proficiency in system design and modification.
- Contributed to troubleshooting and recommending solutions for software issues, enhancing overall project efficiency.
- Received a certificate for Flutter Development of Mobile Applications with Dart.

Engineering Assistant (Intern)
Hirschvogel | May 2019 - May 2020

- Conducted research projects aimed to reduce machining costs and increase production efficiency.
- Developed training materials and instructions for safe maching handling, improving operational consistency.
- Supervised manufacturing operations, addressing technical issues and optimizing production.
- Created and maintained manageable Microsoft Excel worksheets and PowerPoint presentations for reporting and analysis.
